for additional detail services!

HAND WAX (Most cars \$34.95/\$44.95)

This is a fantastic and very popular service. To help protect your vehicle from ultra violet rays and acid rain, waxing your vehicle is a must. Applied with an orbital, our cleaner wax cleans off dirt, minerals and light oxidation. This service can give a dramatic improvement to the appearance of your vehicle and only adds approximately 20 minutes to your stay with us. *(Price does not include your wash selection)*

BUFFING / AMBASSADOR WAX (Price range \$69.95 - \$129.95)

Having your vehicle professionally buffed before waxing will give a face-lift to vehicles with dull paint. Buffing will also smooth out some rough spots and remove minor scratches. Our Ambassador Wax service is a multi-step process that includes buffing and waxing to restore the shine to your car. This service usually requires 1-2 hours depending on vehicle condition. *(Spot buffing is also available)*

CARPET or SEAT SHAMPOO (Price range \$34.95 and up)

We use a vehicle upholstery machine to deep clean your carpets and/or seats. This is a hot water process and will leave your carpets/seats clean and fresh. The price and time requirements for this service can vary greatly depending on the condition of your car's interior. Carpets/seats get dirty gradually and are rarely noticed until they are very dirty and stained. Avoid this by cleaning your carpets/seats with our Express services regularly.

LEATHER CLEANING & PROTECTING (Price most cars \$34.95/\$44.95)

It is very important to routinely protect and clean your car's leather interior. Unprotected leather will dry out and crack if not maintained. We perform a two step process where we gently clean your leather with a special purpose cleaner and then apply a leather protectant to keep the leather supple and prevent deterioration. This service adds approximately 20 minutes to your stay with us.

VINYL CLEANING / SUPER INTERIOR (Price most cars \$34.95/\$44.95)

Some of the most noticeable areas of your car, that are most likely in need of cleaning, are your vinyl and plastic surfaces. The dash, console, seat bottom assemblies, and door panels are frequently neglected by car owners. Our Super Interior service involves scrubbing all vinyl and plastic with cleaning solvent to remove all soils and stains. Once cleaned, a vinyl protectant and conditioner is applied. This service takes approximately 20 minutes.
